Signature Attached to Measure Before He Leaves His Special Train.

### CROWD GREET EXECUTIVE

Arrival of Presidential Party in Washington is Signal for Demonstration on Part of Early Risers; Revenue Act Makes District of Columbia Dry.

WASHINGTON, Feb. 25.—President Wilson arrived in Washington at 5 o'clock this morning from Boston where he landed yesterday from the transport George Washington. Because of the early hour he and Mrs. Wilson remained on their special train some time before going to the White House.

Passing through the station with a brisk step Mr. Wilson found a cheering early morning crowd of travelers awaiting him. He acknowledged the applause by lifting his hat and smiling. Many scores of soldiers in the crowd stood rigidly at attention as the commander in chief passed by.

Announcement was made on the arrival of the Presidential party in Washington today that the President had signed the \$6,000,000,000 war revenue bill. The bill was signed aboard the special train last night before the President retired. This measure carried a rider making the District of Columbia a dry city.

President Wilson today reiterated his confidence that the people of the country will support the plan for a league of nations in a telegram to Theodore E. Burton, president of the League of Nations.

President Wilson left the train at 8:40 o'clock and drove to the White House.

## MOTHERS OF DEMOCRACY UNIT MAY BE ORGANIZED IN CONNELLVILLE CITY

If Sufficient Mothers, Wives, Sisters and Daughters of Service Men Signify Their Desire.

Connellsville can have a unit of the Mothers of Democracy if a sufficient number of mothers, wives, daughters and sisters of service men signify their desire to become charter members of the Allegheny chapter which is now being formed in Pittsburgh. This they can do by sending their names to Mrs. E. G. Hall, 414 East Murphy avenue, or to Mrs. W. R. Clasper, 206 East Green street, before Saturday, March 1.

Mrs. Hall and Mrs. Clasper attended the celebration in Pittsburgh Saturday of the founding of the organization a year ago. These ladies were instructed to arrange for additions to its membership among the mothers of Connellsville soldiers, sailors and marines.

The organization embraces the whole United States and is to include in its membership only the mothers, wives, daughters and sisters of men who answered the call to service during the war with Germany. It will hold relatively the same relation to the new soldiers as the Ladies Circle of the G. A. R. does to the organized veterans of the Civil War.

Mrs. W. H. Newman of Pittsburgh, formerly of Dawson, is secretary of the Allegheny council and a very active worker in promoting the growth of the new organization.

## EXCESS OF ONE-HALF PER CENT ALCOHOL IN LIQUOR IS INTOXICANT

According to Technical Given in a Measure Approved by House Judiciary Committee.

WASHINGTON, Feb. 25.—Any beverage containing more than one-half of one per cent alcohol would be banned by the war-time prohibition act, effective next July 1, under a measure approved yesterday by the House Judiciary Committee to make the act effective.

The committee's definition of intoxicating liquor was written in the bill as follows:

"The words beer, wine, or other intoxicating malt or various liquors in the war prohibition act shall be construed as any liquor which contains in excess of one-half of one per cent of alcohol."

Enforcement of the war-time prohibition law, which continues in effect until after demobilization, is placed with the internal revenue bureau by the bill framed by the committee. Agents of the bureau would investigate violations of the law and prosecutions would be conducted by United States district attorneys. Any place where liquor is manufactured or sold would be declared a public nuisance, subject to abatement, and its operators subject to fine and imprisonment as guilty of a misdemeanor.

Property that owners knowingly permit to be used for violating the law would be subject to a lien for fine and costs of cases resulting from the prosecution.

## MAY ABOLISH BOARD

B. of R. T. Expected to Follow Example of the Conductors.

HARRISBURG, Feb. 25.—Plans for the abolition of the legislative board of the Brotherhood of Railroad Trainmen are expected to be taken at a meeting of the organization which will take place within a short time. The conductors' state legislative board has already been abolished and it is believed that the trainmen will follow this precedent in accordance with a recent circular letter issued by heads of the four big railroad brotherhoods. State lodges have been well canvassed relative to the question and it is believed that delegates will be ready to act at this meeting, the exact date of which will be announced within several days.

Officials of the brotherhood tell that circular letters issued by the brotherhood officials ask that they bring before state legislatures any legislation at this time. It is further urged that it is practically useless for them to any longer maintain expensive offices and office forces for this purpose.

## SUMMER CAMP FOR BOYS OF THE CITY BEING AGITATED

Movement Afoot to Start a Fund Looking Toward Permanent Institution.

### EQUIPMENT IS AVAILABLE

Believed That Low Rates on Discarded Government Tents and Other Necessaries Can be Secured; Would be Open to Boys of All Creeds.

A movement is on foot in Connellsville to establish a fund to promote a summer camp for the boys of the city which would be open to youngsters of all creeds and denominations. The purpose of the camp would be to make it possible for every boy of the city to have a vacation in the mountains if he wishes to and to teach the youths the value of clean lives.

Nothing definite has been taken on the matter as yet, with the exception of getting a footing. A campaign for funds will likely be started soon. A communication regarding the price of securing second-hand camp equipment has been sent to Army officials at Washington. It is thought that some excellent equipment for such a camp could be secured through the government at a reasonable price.

The ministers of the city are in favor of the movement and it is believed that every father and mother who wants their son to enjoy the benefits of outdoor life will be for the camp.

## POISONED SODA WATER KILLS TWO ON STEAMSHIP

Plot for Wholesale Poisoning of Passengers Disclosed.

It was learned here today when the Moana arrived from the antipodes.

Captain Barlow, master of the steamer, said that the Wellington military authorities were investigating a suspected conspiracy which they believe was directed at the wholesale poisoning of troops aboard British transports and that arrests were expected. ## PHILLIPS SCHOOL HOUSE CONDEMNED BY INSPECTORS

Settling of Surface Due to Removal of Load Has Rendered the Building Unsafe for Use, They Report.

A written report of the four mining engineers who inspected the Phillips school house in North Union township and also the mine workings under the building, the removal of coal from which has caused the surface to settle, declares the building is no longer fit for public use. The subsidence of the surface has not yet entirely ceased and the engineers and this movement is a menace to the safety of a rigid building.

The report states that the trouble with the building does not seem to be confined to any one particular section of the structure but that it appears to be spreading over the whole. The rear wall of the annex is badly out of plumb, and the western wall of the main portion is buckled. On the eastern side fractured stone sills, foundation walls, visible parings in the side walls and the displacement of the wood finish inside all indicate a severe and continual strain on the building.

The engineers declare that all appearances indicate the settling will continue for some time to come and that its safety and utility as a school house would be of such a risky nature, state that they could not recommend its reopening as a public building, nor could any method of repair or protection be suggested while conditions remain as they are now.

## KILLED IN AUTO SMASH

Car of Pittsburg Man Goes Over Embankment Near Fayette City.

When his car went over a 15-foot embankment on the Perryopolis road near Fayette City, last evening, John W. Pence, a representative of the East End Battery Service company, of 204 Beatty street, Pittsburg, was fatally injured. The man had stopped at Fayette City but had evidently been confused by the directions and turned into the Perryopolis road by mistake. The road there is a newly paved one and as there is no guard rail there as yet, the car went over the embankment. Pence was pinned under the car.

Papers on the dead man's person showed his identity and a membership card in Fort Pitt Lodge No. 634 F. & A. M., was found. A woman from a nearby farm house heard the crash and Pence called for help. She went to an adjoining house and gave the alarm. Aid from Fayette City was called and Dr. W. L. Quinn and others responded and succeeded in removing the young man from beneath the car. He was still living but died as he was being placed in an automobile. Mr. Pence was on his way to Uniontown on business.

## GASOLINE EXPLODES

Chippole Man Fears It on Fire By Mistake With Disastrous Results.

Instead of the oil he got hold of a can of gasoline and an explosion followed.

The flames enveloped Jones' face and hands. His clothing also ignited and the flames were not entirely extinguished until he had walked part of the half mile to Chippole, a man along the way coming to his assistance.

The office was burned to the ground.

Fitzsimmons admits that he was under a spell of liquor when he was robbed. He reported the robbery during the night to the police. The Dilworth Premium List shows nine pieces of Pyrex Transparent Ovenware for selection. You can choose any of these pieces according to the number of coupons saved. The Pyrex is given free under the conditions because there is no increase in the price of the coffee on account of the premiums.

Twenty-five years ago the first Pyrex was enthusiastically ordered. Being transparent, you can actually see the progress of cooking so you don't have to guess when an article is done. You can see with your own eyes. Therefore in offering Pyrex as a premium we are doing nothing out of the ordinary. We hope by this method to induce you to use Admiral Coffee—the coffee being so good we believe you will thereafter be a continued Dilworth customer.

**Roasted and Steel-Cut by the New Dilworth Process**  
The Dilworth roasting process, practically roasts the coffee thus insuring the retention of the natural coffee flavor. The roasted beans are then cooled by the Dilworth dry process, which insures your getting about one sixth more coffee than if cooled by the customary wet process, whereby the coffee must absorb a part of the water. The Dilworth steel cutting process permits all dirt and chaff to be blown out of the coffee while it is being cut thus insuring more real coffee, better coffee, and cleaner coffee than you can get anywhere at the price.  
Order a pound from your grocer.

A Poor Finish Is Unlikely Blamed on a bad start. You have often heard these remarks: "If I had the chance he had," or "I never had an opportunity, etc." But you usually find the fellow that has the job made the opportunity. When he discovered it required better light to see the ledger, he got a larger globe. When he still had trouble in seeing he consulted A. B. Tedlow, had his eyes examined and found the trouble. If you have any eye trouble consult him at once at Pittsburg street, Scottdale.—Adv.

## NO COWARDS IN COMPANY D.

"If there were any cowards in  
Company D, they died without let-  
ting any one know."

This sentence from a letter written  
by Sergeant Louis M. Chubbey con-  
stitutes a tribute to the courage, brave-  
ry and soldierly qualities of the boys  
forming one of the local organizations  
in the Great War that is all the more  
impressive because it is the testimo-  
ny of a man who has himself endured  
the tests which prove these qualities  
in men. In the "frowning shadows" and  
"ghostly fogs of the Argonne forest,"  
in which the Keystone Division im-  
portantly distinguished itself by its  
daring and persistence in its attacks upon  
a desperate foe, in what was consid-  
ered an "impossible" stronghold, the  
sons of Company D had one of many  
opportunities to prove their mettle.

As a participant in that terrific  
fighting, Sergeant Chubbey witnessed  
the testings with which the boys  
of Conneltsville and Fayette county  
fought the machine guns, shrap-  
nel, poison gas and all the hell-con-  
ceived artifices of destruction the sav-  
age and brutal Huns had turned upon  
them. Not one wavered or turned  
back. With their faces to the foe they  
pushed steadily forward determined to  
gain their objective or die in the at-  
tempt. Their behavior in this action  
has been in all engagements in which  
they had previously participated.  
Sergeant Chubbey to give a  
soldier's admiring but modest estimate  
of their fighting qualities in a terse  
and expressive sentence.

From the day Company D departed  
for Camp Hancock there never was in  
the minds of the people of Connelts-  
ville and Fayette county, a moment of  
doubt, as to how these first untried  
soldiers would meet every test that  
would come to them. In no single in-  
stance has there been disappointment  
in what was expected of boys who  
do or how they would behave in the  
supreme crisis of their individual  
lives or jointly as a unit.

In their first contact with the Ger-  
mans at Chateau-Thierry they excited  
the wondering admiration of veteran  
French soldiers by their vim and dash,  
their steadiness under the hail of Ger-  
man fire and their indomitable pluck  
and courage in holding every inch of  
ground they had gained against great  
odds. Each of the successive engage-  
ments was but a repetition of the first  
insofar as related to their staying  
powers and unyielding determination  
to win. But in the Argonne forest  
where great natural obstacles were  
surmounted by the devilish arts and  
devices of the Germans to strengthen  
their position against successful at-  
tack, the boys of Company D and  
other units of the American troops  
gave the crowning proof of their bold-  
ness, bravery and daring. There, as  
elsewhere throughout the campaign,  
it was proven that "If there were any  
cowards in Company D, they died  
without letting anyone know."

We all know there were none. No  
regiments could have won the glorious  
victories to the credit of the 10th had  
there been cowards in any unit of the  
organization.

The Greenboro Natural Gas company  
evidently does not believe in making  
several bites of a cherry when it comes  
to making advances in the cost of its  
service to consumers. A raise of five  
per cent, the addition of 50 cents per  
month and any other outrageous  
charges and a reduction of two per  
cent in the interest rate on deposits,  
all at one time, is a very fair imita-  
tion of disposing of the fruit at one  
bite.

Would it not be better to clear the  
city of our holdup artists before we  
ask the farmers or any other organ-  
izations or individuals to become our  
guests?

One atmosphere in Washington, or  
at least in the section between the  
White House and the Senate, may be  
described as somewhat more tense.

Grampa's advice and the visit of the  
back to the -Meyers home, formed a  
happy coincidence, without prear-  
rangements, of course.

It must have seemed like home to  
President when the Millard Millies  
gave him the Washington salute in  
Boston yesterday.

It is up to the Senate to make the  
choice of weapons, now that it has  
been challenged to a mortal combat on  
the league of nations proposition.

The Indian Creek Valley is beginning  
to figure somewhat larger in the an-  
nual coal returns.

**JUST GOT OVER A COLD?**

Look out for kidney troubles and backache. Colic, overtax the kidneys and often leave them weak, fit for nothing—well, take what a Connellsville woman says:

"Mrs. Lizzie Knight, 401 Francis Ave., says: 'For years I was almost crippled with my back and couldn't find a remedy that would help me. The pains across my loins were so bad I lost strength and was tired all the time. I could hardly get around the house to do my work. I had dizzy spells and headaches and my sight blurred. God's gift to my kidneys. I was simply miserable with kidney trouble, but I found a cure when I began using Doan's Kidney Pills. Two boxes made me well and I have been entirely free from kidney trouble since.'"

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name that Mrs. Knight had. Foster-McBum Co., Mfgs., Buffalo, N. Y.—Adv.

### At the Theatres

#### SCOTTDALE THEATRE.

"WATCH YOUR STEP"—The biggest and best musical comedy so far this season is what Manager Bailey promises patrons tonight when Lieutenant Irving Berlin's famous international syncopated musical success, "Watch Your Step," will be presented at the Scottdale theatre. "If you like bubbling laughter, captivating music and ragtime dancing," says Manager Bailey, "I guarantee that you will get your fill of it in 'Watch Your Step,' which is the last word in syncopation. This famous New York success is a combination of catchy music and hilarious fun—as gay, extravagant, festive an offering as anyone could possibly hope to see. It is a ragtime riot with a galaxy of beautiful girls and clever principals, numbering half a

## THIS EXTRA WEAR SAVES YOU SHOE MONEY

"I find Neolin Soles superior in every way to other soles. They are flexible, tough and waterproof. In the future I shall buy nothing but Neolin-soled shoes."

A. G. Aldrich, of Springfield, Mass., who makes this statement tested Neolin Soles by having a pair of worn shoes re-soled with them. "They have already worn one month longer than the soles I used to wear," says Mr. Aldrich, "and will be good for at least three months more."

An easy way to try out Neolin Soles. Have them put on your worn shoes. See for yourself how long they last—and why they are a real economy.

Or, get them on new shoes, which come in many styles for every member of the family. Neolin Soles are made scientifically by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Soles, guaranteed to outwear all other heels.

## Women Find Clear Skin In Simple Laxative

A sense of false modesty often prevents women from admitting that many of her ills and disorders are due primarily to constipation.

But women who know themselves have learned that headache remedies and beautifiers only cover the trouble but do not dislodge it.

What is needed is a remedy to move the bowels and stir up the torpid liver. An ever-increasing number of sensible women take a small dose of a combination of simple laxative herbs with special known as Dr. Caldwell's Syrup Pepsin and sold by druggists under that name.

It will save a woman from the habitual use of headache remedies, skin lotions and similar makeshifts. Once the bowels are emptied and regulated, the headache and the pimples and blotches disappear. It is the rational, natural method.

A bottle of Syrup Pepsin lasts a family a long time, and all will find use for it from time to time. Thoughtful people are never without it in the home.

The druggist will refund your money if it fails to do as promised.

**PRICE AS ALWAYS**  
In spite of greatly increased laboratory costs due to the war, we have maintained the price at which this remedy has been sold by druggists for 25 years. Two sizes, 50c and \$1.00.

**Dr. Caldwell's  
SYRUP PEPSIN  
The Perfect Laxative**

**FREE SAMPLES.**—If you have never used Dr. Caldwell's Syrup Pepsin, send for a free trial bottle to Dr. W. B. Caldwell, 144 Washington St., Monticello, N. Y. If there are bottles at home, ask for a copy of Dr. Caldwell's book, "The Care of Health."

hundred people. See it by all means. "Watch Your Step" fulfills the definition of musical comedy in every particular. It possesses exquisite light music, excellent chorus numbers, bright and witty dialogue, plenty of wholesome fun and is presented by a company that makes it fizz and bubble with life-giving "something" that seems to breathe the odor of Broadway into a show. One of the greatest charms to "Watch Your Step" is that it is extremely original, especially in the stage settings and arrangements. The opera scene in the second act being one of the most striking and unique ever shown on any stage.

#### THE PARAMOUNT.

"THE ADVENTURE SHOP"—An unusual story of romance with Corinne Griffith in a charming role, is being shown today. Miss Griffith has the role of Phyllis, leading spirit in a group of society young folks, who organize "The Adventure Shop" to provide excitement. About that time Josephus, whose father has money, comes to the big town seeking excitement and is lured into the adventure shop, the big idea being to give him all the adventure he is looking for and send him home much wiser in short order. But Josephus refuses to be dismayed by fights and holdups and raids and duels, all staged for his benefit. In fact, he is brave to get the extreme of obstinacy. He gets a gang of his own and stages a few thrills on his own hook, with the result that the adventure shop gets into the hands of the police. Josephus is a hero all right, but he does not get him anywhere with Phyllis and her set until he confesses he wasn't brave, after all, only "wiser" to their game. Then he does show real bravery by extracting a check for \$10,000 from his hostile father and asking Phyllis to marry him. Walter McGrath plays opposite Miss Griffith. Thursday Kitty Gordon will be seen in "Mandarin Gold," an interesting World feature.

#### THE SOISSON.

"ADELE"—A wonderful feature in which Kitty Gordon, the celebrated screen star, is seen in a charming role is being shown today. An international beauty and famous for the wealth of feminine adornment with which she invests herself on the stage, Kitty Gordon's name is in itself an unfailing magnet to thousands of worshippers at the shrine of fashion. In her latest vehicle Miss Gordon goes far beyond her recognized claim to popularity and brings to "Adele" historic and emotional powers that reveal her as a new and glorified Kitty Gordon with an artistic appeal unprecedented in any screen offering in which she has hitherto appeared. "Adele" is closely

based on the romantic novel, "The Nurse's Story," written by Adele Blaneau, an American author. It is said to portray the actual experiences of the author as a nurse in France. The book is one of the most thrilling and widely read writings of the present day. The scenes of "Adele" are laid generally in France, and particularly in a big chateau. The production tells a story that appeals to every Red Cross worker and to the million homecoming triumphant doughboys with its vividness of scene and realism of effect. Through it runs a fascinating love story, while one of the very pleasing features of the picture is the remarkable beauty of its exterior and interior scenes. Anita Stewart in "Virtuous Wives" will be presented soon.

#### NEW YORK MUSIC TEACHER

Says "Violin Cures Chronic Coughs" New York City, 121 Nicholas Avenue. "I teach piano and violin and when suffering from chronic coughs, colds and bronchitis, I use Violin as I find it cures when other remedies fail."—Henry Ahlers.

The reason Violin is so successful in such conditions is because it is a constitutional remedy, containing beef and liver peptones, iron and manganese peptones and glycerophosphates. It strengthens and revitalizes the entire system and assists nature to expel the disease.

We know of many such cases. Laughery Drug Co., Connellsville, D. C. Eason, Dunbar, and Druggists everywhere. P. S.—If you have skin trouble try Saxon Salve. Money back if it fails.—Adv.

### EVERYBODY IS NOW FIGURING INCOME TAX

In Order to Be Helpful to Public, Internal Revenue Bureau Has Every Available Officer in Field.

SEVERE PENALTIES IF YOU DELAY BEYOND MARCH 15

With the due date for Income Taxes only a few weeks away, the collection of this far reaching tax in 1918 is coming on apace. Everybody is figuring income tax. Payments and sworn statements of income must reach Internal Revenue offices on or before March 15, and there are severe penalties for delinquency. Residents of Pennsylvania will make returns and pay their taxes to the nearest of the following collectors of Internal Revenue: Ephraim Lederer, Philadelphia; Benjamin F. Davis, Lancaster; Fred C. Kirkendall, Scranton; C. Gregg Lowellyn, Pittsburgh.

Pay your Income Tax by March 15, is the slogan of the Internal Revenue Bureau - which has sent every available officer into the field to help the public to understand the requirements and to prepare the returns.

**Who Must Make Return**

It is estimated that many thousands of single and married persons in this section of the United States who have never before made annual returns are required to do so this year.

Income tax returns must be made between now and March 15 by persons who come under the following classifications:

Any unmarried person whose 1918 net income was \$1,000 or over. Widows and widowers, divorcees and married persons who are living apart from their husbands or wives, are for the purposes of the Income Tax classed as unmarried.

Any married person living with wife or husband whose 1918 net income was \$2,000 or over. The income of both husband and wife must be considered together with the earnings of minor children, if any.

**Revenue Bureau Offers Aid**

Each person in the United States who is in either of these classifications must get busy at once if penalties are to be avoided. He should secure a blank Form 1040 A for reporting net income up to \$5,000 or Form 1040 if his net income exceeded that amount. Forms are being distributed by Collectors and their Deputies, also by banks. By following the instructions on the forms a correct return can be prepared at home. If a person needs advice or aid, the Deputy Collectors in the field will furnish this without charge.

The new Revenue law places the Income Tax duty on citizens and not on Internal Revenue Bureau.

is sending its men to work right with the public to get the tax and the returns in. With active cooperation every tax due March 15 will be paid and every return required by law will be in the Revenue offices on time.

**Exemptions Allowed**

A single person is allowed a personal exemption of \$1,000. If he is supporting in his household relatives who are dependent upon him he may claim the status of the head of a family who has the same exemption as if married.

A married person who lives with wife or husband is allowed a personal exemption of \$2,000. The head of a family is entitled to claim a similar personal exemption.

An additional exemption of \$200 is allowed for each person under eighteen or incapable of self support who was dependent upon and received his chief support from the taxpayer.

A husband and wife living together are entitled to but one personal exemption of \$2,000. If they make separate returns the exemption may be claimed by either or divided.

**Accuracy Required**

Absolute accuracy is necessary in making up income figures. Any person who is working for wages should find out exactly how much he received during the whole year 1918. Fees, bank interest, bond interests, dividends, rents received and all other items must be reported correctly. Mere guesses are not accepted for they are unjust alike to the taxpayer and the Government and defeat the proper administration of the law.

**Natural Query**

(Copyright, John M. M. Company.)

"I wish she would be definite." In her thoughts, she was. She was restless to make her own plans. It had not yet occurred to her that Gerry would stay in all summer. His sister never had been married herself.

"Some one must be with Tom. It may spoil my trip. But Gerry never thinks of that." She believed it to be a simple matter of clothes. It always took her weeks to get ready to go anywhere.

"But I won't wait any longer than next week. If she does not go then, I will. I am already for it. It was already decided long ago."

Gerry, meanwhile, had been wondering how she could suggest to her sister-in-law that her trip be taken first. Without arousing suspicion. Terribly loud in her ears sounded her thoughts those days.

Her husband found a letter to her on the table one evening. "A letter to you from Gerry."

She tried to make the fingers that closed over the letter move casually. She could feel them tremble. What would she say if Tom asked to see it? It was addressed to her in her husband's care. Hardly had found it at the office in his mail. And she went each day to the postoffice to prevent it from falling into his hands! She gave it a quick glance.

"About the drive, of course. Suppose getting out of town at that one. Don't wait to wash up. It will be like leather."

When she had finished her meal, she read her letter with a fine show of indifference. "He sets a date for the drive." She put the letter carefully into her pocket before her husband could stretch out his hand. It would never do for Tom to read that.

"Your letter was received two weeks ago. Pardon me for appearing to have forgotten your kindness."

"The nerve," growled Tom again, his mouth full of Gerry's omelette. "To take you up on an invitation like that. I call that pretty raw."

"You must remember we are such old friends," urged his wife. "He knew I meant it seriously."

"Just the same, it's nerve," grumbled Tom, helping himself to more of the omelette, now a hot run in the center of the Canton platter. His sentiment had taken on an edge of hatred since the episode of the dredge machinery.

"To write to anyone in my house! He knows what I think of him; an ineffectual ass, that's what he is. Blundering around with his little levees, and his fool work on the water tower."

"The water tower?" demanded his sister. "What are you doing with that?"

"Oh, I don't know," rejoined Tom. "My lips protruding. He had been itching to ask some one what Rickard was up to. Twice, he had seen him go up, with MacLean and Estrada. Once, there a large flare of light. But he wouldn't ask! Some of his fool tinkering!"

His sister's gaze rested on him with concern. He had too little to do. She guessed that his little consulting engineer was a mocking one, that his yulet, at least, did not consult him.

"Was it true, what she had heard, that he had made a duke about the machinery? He was looking needy. He had been letting his clothes go. He looked like a man who has lost grip; who has been shivered."

She knew he was sleeping badly. Every morning now she found the couch rumpled. Not much pretense of marital congeniality. Things were going badly, there.

"Everybody has accepted," Gerry was saying. "They have been waiting for me to set the date."

"And you cater to him, let him dangle you all. I wonder why you do it, unless it is to hurt me."

"Hurt you, Tom?" cried his wife, her deep blue eyes wide with dismay.

"How can you say such things? If it is given for him, how can I do anything else than let him arrange the day to suit himself? It would be funny for the guest of honor not to be present, wouldn't it?"

"I don't see why you want to make him a guest of honor," he retorted, covering his position.

Gently, Gerry expressed her belief that she was doing the best thing for her husband in getting up a public affair for his successor. She did think that Tom would see that it showed they had no feeling.

"I think it's a fine idea," agreed Tom heartily. "Tom, you Tom will, too, when he thinks about it." But she did not give him any chance to express himself. "How are you going to manage it, Gerry? You said it was going to be progressive?"

"We shall draw for partners," said Mrs. Hardin. "And change every half a mile. The first lap will be two miles."

"I wish she would be definite." In her thoughts, she was. She was restless to make her own plans. It had not yet occurred to her that Gerry would stay in all summer. His sister never had been married herself.

## TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Promotes Food Digestion, Cures Gas, Sour Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried peppin, bismuth, soda, charcoal, drugs and various dietetic aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little-bismuthated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bismuthated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous harmful acid in the stomach, which now causes your food to ferment and your making gas, wind, flatulence, heartburn, and the bloated or heavy, lumpy feeling that seems to follow everything you eat.

You will find that bismuthated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bismuthated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.—Adv.

You will find that bismuthated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bismuthated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.—Adv.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little-bismuthated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bismuthated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous harmful acid in the stomach, which now causes your food to ferment and your making gas, wind, flatulence, heartburn, and the bloated or heavy, lumpy feeling that seems to follow everything you eat.

## HOWARD MYERS WRITES OF VACATION TRIP TO MEDITERRANEAN SEA

Spends Seven Days in Sunny South of France and Meets With Some Local Boys.

Writing to his parents, Mr. and Mrs. Grant Myers, Howard Myers, with the Quartermaster's Detachment, A. P. O. 712 in France tells of his trip to Nice on a seven-day furlough. The letter in part follows:

"Dear Mother and all:

"I have returned to work again after my vacation, and feel fine after one of the best trips I have had for a long time. The change in temperature makes one feel fine and the change in grub was a welcome one. I feel about 10 years younger."

"I left camp Sunday morning about 10 o'clock and landed in Dijon where I spent about three hours and had a fine meal there before leaving for southern France."

"I had a daylight trip all along the Mediterranean sea through a very beautiful country. I arrived in Nice about 2:30 Monday afternoon. There is a wide boulevard and promenade the entire length of the city along which are many beautiful hotels and private homes. I was located at the Hotel Estrangers, one of the oldest in the city. There were about 200 enlisted men, 100 officers and possibly 25 nurses and about 100 French civilians and officers in the hotel."

"One day five of us took a car and visited Monaco, Monte Carlo, Menton, and the Italian border, returning over the road which winds around the snow capped mountains."

"The Y. M. C. A. is located about the center of the promenade and built out in the sea about 200 feet. The water is under the building but the approach to the building is only in water when the tide comes in. The 'Y' has taken over this beautiful casino and has some form of entertainment every hour of the day."

"You will recall that the Prince of Monaco Carlo was turned down by American society some 10 years ago and during the war the Germans took a couple of very valuable properties that belonged to the prince. When the armistice was signed the Americans notified the prince to come and take charge of the property and now he cannot understand us. He feels very grateful to the Americans and wants to have everything at their disposal while in Monte Carlo."

"We left for Lyons, the second largest city in France. We met Barney O'Connor here with some fellows from Issurville and we all pulled out for Dijon. O'Connor had been spending his leave at Grenoble. We had figured on going on to Paris but I was too tired and dirty to go any farther."

"Instead I came on here and found my Christmas box together with my mail. I surely did enjoy a good feed of peanuts."

"While in Nice I met two Connellsville boys by the name of Carson and DeBolt. I took them to dinner with me one day and spent the afternoon with them."

"There is nothing new regarding my home and I still think it is a long way off, but this trip has broken the monotony for me."

# Starving in the Midst of Plenty

Acid-Stomach Steals Strength and Good Feelings From Millions

One of the worst features of acid-stomach is that very often it literally starves its victims in the midst of plenty. And the strange thing about it is that the people with acid-stomachs seldom know what their trouble really is.

No matter how good or wholesome the food may be, or how much they eat, they do not gain in strength. This is clearly explained by the fact that an acid-stomach cannot properly digest food. Instead of healthy, normal digestion, the excess acid causes the food to sour and ferment. Then when this mass of sour, fermented food, charged with excess acid, passes into the intestines, it becomes the breeding place for all kinds of germs and toxic poisons, which in turn are absorbed into the blood and in this way distributed throughout the entire body. And that is exactly why it is that so many thousands of people eat and eat and keep on eating, and yet grow thinner and weaker in the midst of plenty. Their acid-stomachs make it absolutely impossible for them to get the full measure of nourishment from their food. And it doesn't take long for this poor nourishment to show its ill effects in a weakened, emaciated body.

Today many people say: "My stomach doesn't hurt me." This may be true because many victims of acid-stomach do not actually suffer stomach pains. Then again, there are millions who do suffer all kinds of aches and pains—headaches, rheumatic twinges, goat, lumbago, pains around the heart and in the chest—who never dream that an

acid-stomach is the real cause of the trouble.

Naturally, the sensible thing to do is to strike right at the very cause of this trouble and clean the excess acid out of the stomach. There is a quick, easy way to do this. A wonderful new remedy quickly removes the excess acid without the slightest discomfort. It is EATONIC. Made in the form of tablets—they are good to eat—just like a bit of candy. They literally absorb the injurious excess acid and carry it away through the intestines. They also drive the bloated out of the body—in fact you can fairly feel it work. Make a test of EATONIC in your own case today. Get a big box of EATONIC from your druggist. See for yourself how surely it brings quick relief in those painful attacks of indigestion, bitter heartburn, belching, disgusting food repeating, that awful bloated, lumpy feeling after eating and other stomach miseries. Banish all your stomach troubles so completely that you forget you have a stomach. Then you can eat what you like and digest your food in comfort without fear of distressing after effects.

If EATONIC does not relieve you, it will not cost you one penny. You can return it to your druggist and get your money back. So if you have the slightest question about your health—if you feel you are not getting all the strength out of your food—if you are not feeling fit, joy, reason for your work, full of vim and vigor—do give EATONIC a fair trial this very day and see how much better you will feel.
